Patent of Nativity *Checklist*

*** Important Note:

The Patent of Nativity document follows the Biblical example of genealogy, and uses ***only the forefathers (male)*** lineage. It does NOT use **the females**. (**Matthew 1:1-17, Luke 3:23-38**) Please keep this in mind when gathering your information. See examples at www.PatentofNativity.com

The only female name(*s*) that you will use is your Mother's name, (*if applicable,*) and of course, your name, if you are a female. Again, when gathering and inputting the information, you only have to gather the ***forefathers / males*** **Names**, **Birth Year** [B/Y] and **Death Year** [D/Y], (*if applicable.)* You do ***not*** use female names. You can have someone gather your information for you, or you can use any genealogy site that you choose to gather your lineage and genealogy information.

Examples are: www.ancestry.com/   www.archives.com/

If you already have the information, that's great. Simply fill out the Checklist form and send it, along with current photo and we will take care of the rest. The following checklist helps you gather all of the necessary information so that you can easily compile the information. It will be in the following format:

[**DOUBLE LINEAGE**] -You, your father <**AND**> mother, grandfathers (*on both sides*), great grandfathers, great great grandfathers, great great great grandfathers, and so on up to 10 generations on both your father's side and also the same format on your mother's side. These will be represented as G1 (Great Grandfather), G2 (Great Great Grandfather), G3 (Great Great Great Grandfather) and so forth.

[**SINGLE LINEAGE**] If you are using only a single parent, the same rule applies. You, your father <**OR**> mother, grandfathers, great grandfathers, great great grandfathers, great great great grandfathers, and so on up to 10 generations on your father's side and the same format on your mother's side.

The checklist makes the process go much easier and quicker. For both parents lineage, fill out *ALL* of the information on the Checklist before submitting it for your document. If you are using only a single parents lineage, fill out all of the information ***on the parent you will be using***, and exclude the section on the parent that you are not using before submitting it for your document.
